TG Manufacturing announces its Craft Steel operation has been certified as ISO 9001-2008

Grand Rapids, MI –TG Manufacturing today announced its West Michigan-based Craft Steel operation has been certified by American Systems Registrar of Wyoming, MI as ISO 9001-2008 compliant. The scope of this registration encompasses the manufacturing of laser cutting, CNC Turning, CNC brake press and metal fabrication of assemblies, machined products and components.

Craft Steel was acquired by TG Manufacturing, LLC in 2014 and relocated to Byron Center, MI., then expanded with the integration of C&R Machine Corp., of Sand Lake, MI. C&R Machine was acquired by TG Manufacturing in August of 2014.

According to TG Manufacturing Corporate Quality Manager Mark Armitage, the certification allows Craft Steel to confirm its benchmark status as a manufacturing company.

"We achieved this goal due to the tremendous dedication and teamwork of everyone at this operation," Armitage said. "Our ongoing commitment to provide our customers assurance of product quality is reflected through the efforts to receive this ISO 9001-2008 certification."

TG Manufacturing Vice President of Operations Garret Strbik said he is pleased to receive the certification.

"Our commitment to our quality operating systems and world class manufacturing is demonstrated through the receipt of this certificate," Strbik said. "We are proud to continue our relationship with the esteemed group of organizations across the globe that have established ISO 9001-2008 as the preferred quality assurance standard."

ISO 9000 is a series of internationally-recognized standards developed by the International Organization of Standardization which define requirements for the implementation of quality systems in operational procedures. The standards apply uniformly to companies in any industry and of any size. ISO 9001-2008 applies to industries involved in the design and development, manufacturing, installation, and servicing of products.
