## **TG Manufacturing establishes facility in Mexico**

**Grand Rapids, MI** –Western Michigan-based TG Manufacturing today announced the opening of TG Manufacturing DE Mexico S.DE.RL.DE.CV, its new manufacturing operation in Monterrey, Mexico.

Located 10 minutes from the Monterrey International Airport in Apodaca’s Milenium Industrial Park, the operations processes include metal stamping, robotic welding, assembly and machining.

The operation will be part of TG Manufacturing’s vertically integrated metals manufacturing strategy to supply a multitude of industries, TG Manufacturing President Rich Achtenberg said.

“This expansion into Mexico allows TG Manufacturing to provide integrated metal components and systems to our important base of traditional customers and also creates new opportunities for the company,” Achtenberg said. “Those opportunities have included an expansion of its operations at several of its U.S. locations. In addition, the launch has positioned TG Manufacturing geographically to supply its customers with international operations throughout the Americas.”

TG Manufacturing De Mexico has begun supplying its international customers with operations in Mexico with metal components, sub-assemblies and assemblies in Q1 2016 with a ramp-up over the next one to two quarters.

“This expansion into Mexico will allow us to better serve our current customers as well as develop new relationships, and we look forward to further growth throughout Latin America,” said TG Manufacturing De Mexico Operations Director Ricardo Cortina. “Our location in Apodaca makes us ideally suited to work with customers here in Monterrey and throughout Mexico.”

TG Manufacturing De Mexico is a division of TGM Latin America, LLC, a wholly owned subsidiary of TG Manufacturing, LLC.

### **About TG Manufacturing:**
